Participant code :0002_____ Observer: Colton Keiser_____ Date: 11/12/2026__ _____
Game or team: NinjaFrogPlatformer _____ Build:V0.3_____ Device :Mouse&Keyboard_____

Anonymous notes agreed? [X] Yes [ ] No — stop collecting notes
Prior experience with this build: [X] None [ ] Watched it [ ] Played it
Platformer experience: [ ] None [ ] Occasional [X] Frequent
Control device familiarity: [ ] New [ ] Some [X] Comfortable
Optional setup or access needs relevant to play _____N/A_____

Timing and outcome codes

Agreed hint time ___30___ seconds Task cutoff ___90___ seconds Task order ___1_____

U = target use succeeds before any outside help. A = target use succeeds after help. I = target use does not succeed by the stop time. NR = not reached or not testable; explain why. A bypass does not count as discovery of the target use.

Record discovery at the first purposeful attempt to use shooting for this effect. Note the action or quote that supports it. An accidental hit alone does not establish understanding. Times below are elapsed from the start of each task; use “not observed” when needed.

Door

Starting state or earlier exposure ____First time playing this build; weapon was available at task start._____

First purposeful attempt at ___10__ s [X] Before help [ ] After help [ ] Not observed
Evidence of discovery __Aimed at the keyhole and said, “Maybe this is what the darts are for.”_____

Shoots the lock and opens the door: [X] Yes [ ] No Time __21__ s
Passes through the door: [X] Yes [ ] No Time __25__ s

First help at __None__ [X] None Help or deviation ____No help._____
Target use outcome: [X] U [ ] A [ ] I [ ] NR Task stop time __25__ s
If bypassed, incomplete, or NR, explain ____Completed as intended._____

Enemy

Starting state or earlier exposure ____First time seeing this enemy type; had just used the weapon on the wall._____

First purposeful attempt at ___34__ s [X] Before help [ ] After help [ ] Not observed
Evidence of discovery __Fired at enemy; said, “It stops him for a second.”_____

Shoots the enemy and causes a stun: [X] Yes [ ] No Time __13__ s
Reaches the marked destination: [X] Yes [ ] No Time __24__ s

First help at __None__ [X] None Help or deviation ____No help._____
Target use outcome: [X] U [ ] A [ ] I [ ] NR Task stop time __24__ s
If bypassed, incomplete, or NR, explain ____Used stun to pass._____

Wall

Starting state or earlier exposure ____Had not seen the wall interaction before; had six loaded darts and eight in reserve._____

First purposeful attempt at ___45__ s [X] Before help [ ] After help [ ] Not observed
Evidence of discovery __Fired at wall and said, “The wall is building platforms.”_____

Creates steps by shooting the wall: [X] Yes [ ] No Time __38__ s
Uses the steps to reach the top: [X] Yes [ ] No Time __55__ s

First help at __None__ [X] None Help or deviation ____No help._____
Target use outcome: [X] U [ ] A [ ] I [ ] NR Task stop time __55__ s
If bypassed, incomplete, or NR, explain ____Climbed the steps to the top._____

Observation log and player feedback

Participant code ____0002_____ • Attach extra log pages if needed

What happened during play

Write one event per row. Describe visible actions. Put the player's exact words in quotation marks. Keep possible explanations in the interpretation space below. Include help, reload trouble, bugs, and accidental successes.

Task and elapsed time	Observed action or exact quote	Help given or technical issue
Movement / door: 0:00 - 0:25	Moved immediately, noticed the keyhole, aimed and fired. Said, "Maybe this is what the darts are for." Door opened.	No help or technical issue.
Enemy: 0:49 - 1:44	Fired at the enemy, noticed the pause, then moved past it during the stun.	No help given.
Wall: 0:25 - 0:49	Jumped at wall, then fired. Steps appeared; player climbed to the top.	No help; no ammo issue.

Questions after all three tasks

Ask these after play so the questions do not reveal the later tasks. Record the player's answers, including when they do not remember.

1. What did you think shooting could do when you first found the weapon?

___I expected the blowdart to attack enemies. I did not expect it to change the environment or open things. The short stun surprised me._____

2. What helped you work out what to do at the door, enemy, and wall?

_The keyhole suggested the door solution. After that, I tested the dart on other unusual objects. The steps appearing made the wall result clear._____

_____

3. Where did you get stuck, and what did you expect to happen?

_____I first tried jumping up the wall. I did not get fully stuck, but the wall took the longest to understand._____

_____

4. How clear was what to do at each obstacle? Circle one per row.

1 = very unclear 2 = unclear 3 = neither clear nor unclear 4 = clear 5 = very clear

Door: 1 2 3 **4** 5 / not reached Enemy: 1 2 3 **4** 5 / not reached

Wall: 1 2 3 **4** 5 / not reached

Door : 5

Enemy: 4

Wall: 4

Observer interpretation after the session

Possible explanation, linked to an event above ____The experienced player completed all three interactions without help. The keyhole likely suggested the door solution and encouraged further experimentation._____

_____

Alternative explanation or uncertainty _____The player may be unusually willing to experiment. One experienced player cannot show whether the wall is clear to beginners._____

_____

.
