Participant code :0003_____ Observer: Colton Keiser_____ Date: 11/12/2026__ _____
Game or team: NinjaFrogPlatformer _____ Build:V0.3_____ Device :Mouse&Keyboard_____

Anonymous notes agreed? [X] Yes [ ] No — stop collecting notes
Prior experience with this build: [X] None [ ] Watched it [ ] Played it
Platformer experience: [ ] None [X] Occasional [ ] Frequent
Control device familiarity: [ ] New [X] Some [ ] Comfortable
Optional setup or access needs relevant to play _____N/A_____

Timing and outcome codes

Agreed hint time ___30___ seconds Task cutoff ___90___ seconds Task order ___1_____

U = target use succeeds before any outside help. A = target use succeeds after help. I = target use does not succeed by the stop time. NR = not reached or not testable; explain why. A bypass does not count as discovery of the target use.

Record discovery at the first purposeful attempt to use shooting for this effect. Note the action or quote that supports it. An accidental hit alone does not establish understanding. Times below are elapsed from the start of each task; use “not observed” when needed.

Door

Starting state or earlier exposure ____First time playing this build; had not used the blowdart before._____

First purposeful attempt at ___10__ s [ ] Before help [X] After help [ ] Not observed
Evidence of discovery __After hint, aimed at lock and said, “I guess I need to hit it.”_____

Shoots the lock and opens the door: [X] Yes [ ] No Time __43__ s
Passes through the door: [X] Yes [ ] No Time __49__ s

First help at __30__ s [ ] None Help or deviation ____Hint: “Try shooting the lock.”_____
Target use outcome: [ ] U [X] A [ ] I [ ] NR Task stop time __49__ s
If bypassed, incomplete, or NR, explain ____Completed after hint._____

Enemy

Starting state or earlier exposure ____First encounter with this enemy; player had learned that shooting could affect the door._____

First purposeful attempt at ___1:01__ s [ ] Before help [X] After help [ ] Not observed
Evidence of discovery __After hint, fired and said, “It actually stops them.”_____

Shoots the enemy and causes a stun: [X] Yes [ ] No Time __35__ s
Reaches the marked destination: [X] Yes [ ] No Time __46__ s

First help at __30__ s [ ] None Help or deviation ____Hint: “Try shooting the enemy.”_____
Target use outcome: [ ] U [X] A [ ] I [ ] NR Task stop time __46__ s
If bypassed, incomplete, or NR, explain ____Tried to jump around it first._____

Wall

Starting state or earlier exposure ____First time seeing the wall; player had used several darts during the earlier tasks._____

First purposeful attempt at ___30__ s [ ] Before help [X] After help [ ] Not observed
Evidence of discovery __After hint, fired and said, “That made a step I can jump on.”_____

Creates steps by shooting the wall: [X] Yes [ ] No Time __36__ s
Uses the steps to reach the top: [X] Yes [ ] No Time __61__ s

First help at __0:45__ s [ ] None Help or deviation ____Hint: “Try shooting the wall to make steps.”____
Target use outcome: [ ] U [X] A [ ] I [ ] NR Task stop time __61__ s
If bypassed, incomplete, or NR, explain ____Climbed steps after hint._____

Observation log and player feedback

Participant code ____0003_____ • Attach extra log pages if needed

What happened during play

Write one event per row. Describe visible actions. Put the player's exact words in quotation marks. Keep possible explanations in the interpretation space below. Include help, reload trouble, bugs, and accidental successes.

Task and elapsed time	Observed action or exact quote	Help given or technical issue
Movement / door: 0:00 - 0:30	Moved through area, inspected door, and tried approaching it. Fired at lock after hint and passed through.	At 0:15: "Try shooting the lock."
Wall: 0:31 - 1:01	Jumped against wall. After hint, fired; steps appeared and player climbed up.	At 0:45: "Try shooting the wall to make steps."
Enemy: 1:01 – 1:25	Tried jumping around enemy. After hint, shot it, saw it freeze, and reached second wall.	At 1:25: "Try shooting the enemy."

Questions after all three tasks

Ask these after play so the questions do not reveal the later tasks. Record the player's answers, including when they do not remember.

1. What did you think shooting could do when you first found the weapon?

___I thought the blowdart was for enemies. I did not realize it could interact with doors or the level. I was still unsure what to shoot after opening the door._____

2. What helped you work out what to do at the door, enemy, and wall?

_The hints helped most. I did not connect the keyhole to shooting right away. Seeing the enemy freeze showed me how to use the dart, and the wall hint told me what to try._____

_____

3. Where did you get stuck, and what did you expect to happen?

_____I tried jumping around the enemy first. The wall was confusing because I expected it to be solid. I also worried about using too much ammunition._____

_____

4. How clear was what to do at each obstacle? Circle one per row.

1 = very unclear 2 = unclear 3 = neither clear nor unclear 4 = clear 5 = very clear

Door: 1 2 3 **4** 5 / not reached Enemy: 1 2 3 **4** 5 / not reached

Wall: 1 2 3 **4** 5 / not reached

Door : 3

Enemy: 3

Wall: 2

Observer interpretation after the session

Possible explanation, linked to an event above ____The player needed a hint for all three uses and first tried to bypass the enemy. The wall interaction was not self-evident to this player._____

_____

Alternative explanation or uncertainty _____Caution about limited ammunition may have reduced experimentation. Occasional platformer experience may also have affected discovery._____

_____
